The previously flat landscape has been shaped into an interesting and undulating golfing terrain that is pleasing to the eye and provides an interesting and challenging test of golf. The design incorporates 3 strategically located lakes and a great deal of emphasis has also been placed on integrated tree planting and landscaping.

Hacienda Riquelme Golf, a medium-length, par-71 golf course, is situated in a beautiful natural desert valley. The golf course is routed in a 'core' format that groups several holes together while keeping the surrounding development on the perimeter. This means many holes border other golf holes and not houses, creating a more open and natural golf experience. Rather than length, the course relies on numerous subtle strategic elements to challenge golfers.

WGGC polo shirts are optional but preferred by the committee on the first two days but mandatory Blue or Red on Saturday's event.

The golf course extends across the valley between the hills, adapts to the unusual lie of the land and blends naturally into the landscape. The width of its fairways, the design of its extensive undulating greens, and the numerous tees at each hole give it great versatility and mean that it is suitable for professional competitions, while also offering any player a pleasant, enjoyable and affordable game.

Do not forget to pack your golf shoes and take a hat, the sun will burn you even under cloud cover. Take plenty of golf balls as these can be expensive at the tourist courses.
