Gramacho Golf Course

Gramacho Golf Course has 27 varied greens that enables the golfer to play the same course several times with different greens and new challenges. This golf course is maintained at tournament standard all the year round. The wonderful characteristics already existing on the site, from the boulder outcrops and dry stone walling to the fig, carob and olive trees, have been complemented by artfully positioned lakes and bunkers. These hazards, combined with the design of the greens and fairways, result in a challenging but attractive golf course

The Morgado Golf Course is situated to the north of the town of Portimao and is the sister course to the Álamos Course. The Morgado Golf Course is laid out in a large 980 hectare estate through undulating small valleys. The immediate main characteristic factors are generous fairways and its large greens which place demand on good putting skills. Also, the accuracy of the players shot will be questioned by deep aggressive bunkers.
